**Subject:** Medical Students in Flint, MI: Flint Water Crisis Proposed Policy Changes  
**Attachments:** Resolutions.docx; ATT00001.htm

*Hello Mr. Miguel Del Toral ,*

*My name is [Citizen Name / Ex. 6] and I am a medical student at Michigan State University College of Human Medicine in Flint, MI and I am writing to you on behalf of the Medical Partners in Public Health certificate program that is affiliated with the college. Myself, along with 4 other medical students are drafting policies around the Flint Water Crisis that we hope the American Medical Association will lobby congress to put into law. Some of our ideas that we are pushing are centered on increased transparency of the State Health organizations that deal with water safety, as well as increased oversight by the EPA. Do you have any suggestions for policy that we should take to the American Medical Association? We are hoping that with your support, and the media attention brought to Flint at this time that we will be able to push for legislation to prevent future potential outbreaks.*

*I've attached a draft of our proposed policies to this email.*

*Thank you,*

[Citizen Name / Ex. 6]
